Buffet Solutions

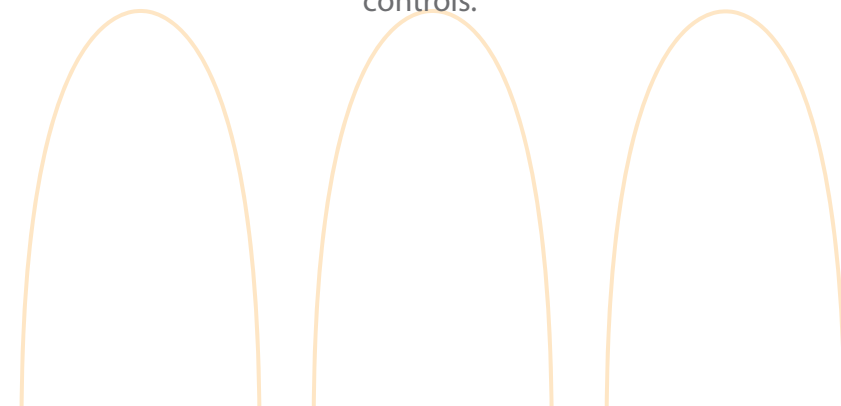

From around the globe come these quality **Yellow Brand Induction Units** for the performance conscious.

With unrivalled reliability, high performance and a range to suit all buffet requirements, you can be confident that your needs and those of your customers are met.

Choose from the complete range of Drop In units from 1Kw for warming and holding, to the powerful 7Kw model that caters for the most demanding of tasks. Best of all, the individual Drop-In units (excluding multi-zone) have the same dimensions for uniform appearance in your buffet.

The Multi-Zone Cooking range offers unique capabilities combined with a smooth quality top and easy to use remote controls.

Choose the power level to best suit your needs with these Drop-In models.

Y1000NT

The 1000W model is ideal for food that only requires a holding temperature, and hence offers practicality and economy of use.

Y2000D

The 2000W model provides more versatility by enabling faster warm up of product and some cooking power as well.

Y2500AD

For robust power, this unit is the answer for high demand, fast performance needs in the busiest environment. Complete with easy to use remote control.

YMC-2-2500 & YMC-3-2500 MULTI ZONE

The ultimate answer for any buffet requirement - the Yellow Multi-Zone Series - available in two or three zone versions. Unlike lesser units, these models enable even small containers to be used simultaneously with large pans etc., to maximize efficient use of the heating area. Imagine the benefits of having a range that can offer so much flexibility and still look fabulous dropped-in flush to your benchtops. Each zone offers 2500W of power that can be easily adjusted for holding use via the individual remote controls for each zone. Remote generators provide flexibility and ease of installation.

Built In Cooking

Y3500DDSS

Your chef will thank you for the power and flexibility of this Dual 3500W Built In unit. With quality finish to the stainless surround, and integral generator, this model offers real power in an easy to install unit with electronic remote control.

Table Top Cooking

Y2500TT

The practical answer to portable heating/holding or cooking at its induction best!

This model provides portable power anywhere you need at the touch of a button and twist of the dial. Easy to use and easy on the eye too, with 2500W of cooking power available instantly.

Self contained and easily positioned anywhere, in conference rooms, buffets, kitchens anywhere you need substantial power.

Y3500TT

For more serious power, the 3500W of this quality unit provides the rapid response required in high demand environments. Easily moved, with simple controls and quality construction, your staff and customers will appreciate the versatility of this unit.

Y1000WCS

The elegant answer for those times when extra capacity is required or the flexibility to move from one location to another for those special functions. Sporting a luxury chrome finish to the stylish legs and support, with easy to use touch controls, this unit will fit into any contemporary situation and perform perfectly when warming and holding is required, complete with chafing dish locator.
